

Expert **online** education

Online Course Guide

Choose from 170+ courses and study online

une
University of
New England

Study with UNE online and see why UNE gets the maximum 5-star rating from graduates year after year.*

UNE has been helping adults study from home longer than any other Australian university and our students say we're the best at it. That's what you would expect from a university with over 60 years of experience in distance education.

Flexibility

Study online across three study periods with 24/7 online tutor support. If you don't have entry qualifications, our free Pathways Enabling Course gives you entry and credit to most of UNE's undergraduate degrees.

UNE has a campus in Armidale and study centres in Parramatta, Taree, Tamworth and several locations throughout regional NSW.

Study Online

Studying online

We know that a vital part of your success is your easy access to resources and to the rest of the online learning community, including your classmates, academic staff and support staff.

Online study means that your study can take place whenever it suits you.

24/7

Study is available online across three study periods with 24/7 online tutor support (see page 11).

How does online study work?

Instead of turning up to a lecture on campus at a designated time, the course content is provided online for you to access each week when it suits you. It might be a podcast (recorded lecture), a set of readings, questions posed in a discussion board, an online quiz or a video. Your lecturer will guide you through the unit with a weekly plan of study and will regularly check in on the discussion boards or forums. There are various ways you can communicate with teaching staff and other students.

To make sure your learning can take place when it suits you, UNE provides online facilities that allow you to send questions, submit assignments, order library books, check your results and access other resources, 24 hours a day, seven days a week. UNE also has exam centres in all major cities and many regional areas across Australia, so you don't have to travel far to sit your exams.

UNE is now piloting Online Supervised Exams with a small number of units. We hope to roll this technology out widely in future trimesters.

Online community

We also believe that a vital part of online study is your engagement with the learning community. Communication with your classmates, teaching staff and university support staff will enhance your study experience and ensure that your skills extend beyond just the subject matter.

5 Awarded 5 stars **Overall Experience** - Good Universities Guide 2019
★★★★★

Intensive schools

Some online units have intensive schools (sometimes known as residential schools). They enable students to engage in practical exercises and classes that are designed to achieve specific learning outcomes. Intensive schools are a valuable and enjoyable experience that enrich the learning process and help build your networks.

i See une.edu.au/courses to find out which units have intensive schools.

Accommodation at UNE

Whether you need short term accommodation as part of your online study program, or you want to immerse yourself in the college lifestyle throughout your degree, UNE has a range of stress-free and affordable accommodation solutions to suit your needs, including modern apartments complete with your own kitchen and bathroom facilities.

i For more information visit une.edu.au/living

What is a Degree?

Undergraduate degrees

An undergraduate degree (eg Bachelor) is the award you receive once you have completed your course of study. It is where most first-time university students commence their tertiary studies. To obtain your degree you must complete a specified number and combination of units. Most undergraduate degrees can be completed in 3-5 years of full-time study or 6-10 years part-time.

The components of your degree

Your course is made up of a series of units. In most cases, degrees have compulsory units, referred to as 'core' units, as well as a selection from a specified range of units. In some degrees, you may also select units from a range of disciplines; these are referred to as 'elective' units.

A unit is generally equal to 6 credit points (you will see this written as 6cp). Units that cover two trimesters are generally equal to 12 credit points.

A number of degrees include majors, which are considered as in-depth study in a specific area or discipline.

Qualification progression

The diagram opposite shows the progression of qualifications as per the Australian Qualifications Framework (AQF). You do not need to follow the AQF levels in a linear fashion. There are many different ways to progress, including exit and entry points in some qualifications. How you progress depends on the qualifications and experience you already have and qualifications you wish to obtain.

i To learn more about the Australian Qualification Framework visit aqf.edu.au

Postgraduate degrees

Postgraduate programs are generally for people who have already successfully completed an undergraduate degree and/or who have significant industry experience. Postgraduate courses can be undertaken by either coursework or by research.

There are many reasons why you might undertake postgraduate study: to progress in your career, to change careers entirely or for personal fulfilment. Whatever your reason, UNE has a wide range of postgraduate degrees available, and our flexible approach to study means you don't have to stop working or even leave home to study.

Postgraduate coursework degrees

Postgraduate coursework degrees include Graduate Certificates, Graduate Diplomas and Masters. Particular Masters degrees have Graduate Certificates and Graduate Diplomas as entry points. Alternatively, some Masters degrees offer an exit pathway in the form of a Graduate Certificate or Graduate Diploma.

i For more information about specific coursework degrees visit une.edu.au/courses

Postgraduate research degrees

This is your chance to shine, to study what you are passionate about, and make an original contribution to research in your field.

A postgraduate research degree can be either at Masters level, which is usually of 2 years duration, or at doctorate level which is of 3-4 years duration. Doctorates are the highest level of academic achievement, where you will develop advanced skills in research, critical thinking and problem solving.

UNE's staff and students make a significant contribution to research across a diverse range of areas. We are renowned for providing high-quality research training both domestically and internationally.

i For more information about UNE's research opportunities visit une.edu.au/research

What should you study?

Things to consider when deciding what to study include:

Your areas of interest - students always do better when they are studying something that is of interest to them.

Career goals - are you seeking:

- professional qualifications to progress in your career;
- to change careers, or;
- personal enrichment or fulfilment?

Other considerations

- What current qualifications/work experience do you have?
- Would you like to study full-time or part-time?
- When would you like to commence?
- If considering postgraduate study, would you like to complete a qualification by coursework or by research?

Browse & explore

Once you have answered the questions above, start browsing the different study areas in this brochure, or online at my.une.edu.au/courses. This will help you to get a general feel for what you will learn and how particular qualifications will assist you in achieving your goals.

You will also find details about all of the courses available at UNE, including a course overview and rules, duration, study options and entry requirements.

Pathways to Study

Entry Pathways

If it's been a while since you last studied or if you don't have entry qualifications, UNE offers a range of pathways to help get you on your way, such as the Pathways Enabling Course.

Pathways Enabling Course*

The Pathways Enabling Course is a program of study for students without the educational background for admission to an undergraduate degree at UNE.

Pathways Enabling is studied fully online, has no tuition fees and will give you entry to most UNE degrees.

You'll receive mentoring and additional tutorial support through two foundation units, which provide you with the skills and confidence required for successful undergraduate study. You then choose two units from a range of academic units, making sure they are part of the degree you want to enrol in later. On successful completion of these units they may be credited towards your degree – so when you start your degree, you'll already be two units ahead!

i For more information visit une.edu.au/enabling

* Eligible domestic students are exempt from the student contribution amount for HECS and the Student Services and Amenities Fee (SSAF).

Science Pathways

Want to study Science at UNE but don't have the background? Follow Science Pathways.

The Science Pathways program, in the Bachelor of Scientific Studies, is designed for students who may have little or no scientific background. It aims to build the skills and knowledge that will allow students to be accepted into other, more specialised science-based degrees. The Science Pathways program includes foundation units in basic sciences to get you up to speed. In addition, the program lets you choose units from a range of specific study pathways. On completion of the Science Pathways program you can transfer into the science degree of your choice, with credit for units already completed.

i For more information see page 37 or visit une.edu.au/science-pathways

Mature Age Special Entry

UNE provides for "Mature Age Special Entry" as an alternative entry pathway for undergraduate applicants without educational qualifications such as an ATAR or equivalent. As an applicant, you have the opportunity to make your case for studying at UNE based on your motivation, commitment and aptitude. Your supporting case should explain how your education, work and life experiences demonstrate that you have competencies relevant to your intended university studies.

i For more information visit une.edu.au/pathways

Foundation units

Some degrees at UNE have “assumed knowledge” or “recommended study” requirements for mathematics, chemistry or physics. If you don’t meet these recommendations or don’t feel confident with your knowledge, UNE offers a range of foundation units, to ensure you get the basics right. Some units are offered within degrees, so you can complete these units as part of your study. Other units are offered as short foundation courses prior to the commencement of trimester.

i For more information visit une.edu.au/foundation

Credit for previous study

Your prior study at university, TAFE or private educational providers may give you advanced standing or credit towards your degree. This will reduce the amount of time you need to study.

i For more information visit une.edu.au/advanced-standing

TRACKS Tertiary Preparation Program^{*~}

TRACKS is a tertiary preparation course for Aboriginal and Torres Strait Islander students who would like to develop academic skills and knowledge to undertake undergraduate studies at UNE. You will be part of a community of Aboriginal and Torres Strait Islander students who share your goals and interests. During the course you will build confidence and academic skills through flexible learning. You will also take an undergraduate unit in your area of interest that may count towards your UNE degree. On successful completion of the TRACKS course you will be eligible to apply for UNE undergraduate study.

i For more information visit une.edu.au/oorala

Special Tertiary Admissions Test (STAT)

The Special Tertiary Admissions Test (STAT) is a series of related tests designed to assess a range of competencies that are considered important for success in tertiary study. STAT assesses your ability to understand the material given and to think critically about issues, rather than to test knowledge of curriculum or a specific academic subject. UNE accepts the multiple choice version of STAT. In NSW and ACT, STAT is managed by the Australian Council for Educational Research (ACER).

i For more information visit www.stat.acer.org

VET pathways

The University has agreements with several training organisations that recognise prerequisite qualifications and advanced standing for university courses. These include UNE Partnerships, TAFE, the Australian Agricultural Colleges Corporation, Tocal Agricultural College and the Australian Defence Force.

UNE Partnerships

UNE Partnerships is the Registered Training Organisation (RTO) of UNE, offering a range of vocational programs for career and professional development. Our qualifications provide alternative pathways into the University of New England. UNE Partnerships qualifications develop skills through workplace learning, ensuring new knowledge is directly relevant to the work environment. UNE Partnerships’ flexible approach to education allows you to organise study around your existing schedule.

i For more information call 1800 066 128 or visit unep.edu.au

UNE Partnerships Pathways to UNE

* Eligible domestic students are exempt from the student contribution amount for HECS and the Student Services and Amenities Fee (SSAF).

~ Please note the SSAF is applicable to students choosing to study the TRACKS program on campus. Eligible TRACKS students may apply for SA-HELP with regard to the SSAF.

Cost to Study

How much does it cost to study at UNE?

The amount you pay for a degree depends on a few things – whether you get a Commonwealth Supported Place (CSP) or a Full-Fee place, your residency and which cost ‘band’ the units of your degree fall within.

Undergraduate degrees

The majority of undergraduate courses at UNE have Commonwealth Supported Places (CSP) available**, which you can apply for provided you are an eligible domestic student and meet the residency requirements. This means the Australian government makes a contribution covering a portion of the cost of your degree and you pay the difference between this contribution and the total cost of the degree.

i For more information visit studyassist.gov.au

Postgraduate degrees

Most postgraduate coursework degrees at UNE have both Commonwealth Supported Places (CSP) and Full Fee places available**. A Full Fee place means you pay for the cost of the course. The Full Fee amount you are required to pay will depend on the course or cluster your unit of study falls under. If you are admitted into a Full Fee course, you may be eligible for a Government loan called FEE-HELP.

i For more information visit studyassist.gov.au

Postgraduate research degrees

Students studying for a research degree may also be eligible for a Research Training Program (RTP) place. The Research Training Program provides an exemption from unit tuition fees.

i For more information visit une.edu.au/rtp

Student contribution bands for CSP

Within a CSP there are seven different ‘bands’ of costs, divided by discipline areas. Known as Student Contribution Bands, (see table below), they show the fees you will be charged per unit in each band, ie the difference between what the government contributes and the total cost of the fees.

The fees a student pays are calculated on an individual basis. This is due to the different bands and study loads a student undertakes each year and because the student contribution amounts change annually. For example, if you study a Bachelor of Arts, you might choose units in humanities, commerce and statistics. These units are all in different contribution bands and have different costs.

2019 Student contribution bands*^

Student contribution bands (charges per unit or 6 credit points)	CSP Rates
BAND 1: Arts, Humanities, Behavioural Science, Social Studies, Clinical Psychology, Foreign Languages, Visual and Performing Arts.	\$820.00
BAND 2: Computing, Built Environment, Allied Health, Other Health, Agriculture.	\$1169.00
BAND 3: Law, Dentistry, Medicine, Veterinary Science.	\$1369.00
BAND 4: Education, Nursing.	\$820.00
BAND 5: Accounting, Administration, Economics, Commerce.	\$1369.00
BAND 6: Mathematics, Statistics, Science.	\$1169.00
BAND 7: Engineering, Surveying.	\$1169.00

*Charges per 6 credit point (cp) unit. If the unit is 12 credit points then the cost above will be x 2.

^ Costs correct at time of printing. Some exceptions apply. For full details on how much you can expect to pay, visit: studyassist.gov.au

** Please note there is a limited number of Commonwealth Supported Places (CSP) available each year. CSP are subject to availability when you apply.

Payment options*

For Commonwealth Supported Places, you have several payment options open to you. If you are an Australian citizen, permanent humanitarian visa holder or an eligible New Zealand Special Category Visa holder you may:

- pay the total unit cost up front; or
- defer the payment until after you graduate and start earning over the minimum income threshold (The compulsory repayment threshold for the 2018–2019 income year is \$51,957 - see HECS-HELP information below); or
- pay some of the amount up front and defer the rest.

HECS-HELP*

HECS-HELP is a loan program to help eligible Commonwealth Supported students to pay their student contribution amounts. To be eligible for a HECS-HELP loan, you must be studying in a Commonwealth Supported Place and be an Australian citizen or permanent humanitarian visa holder. Eligible New Zealand Special Category Visa holders may also be eligible for HECS-HELP. Essentially, the HECS-HELP loan scheme lets you defer the payment of your student contribution until you reach the minimum income threshold (which is \$51,957 for the 2018-2019 income year).

i For more information visit studyassist.gov.au

FEE-HELP*

FEE-HELP is a loan for eligible domestic fee paying students. These places are not subsidised by the government and tuition fees are set by the approved providers. FEE-HELP is available at public universities as well as approved FEE- HELP providers.

What's the difference between HECS-HELP and FEE-HELP?

HECS-HELP is only available to students who have a Commonwealth Supported Place (CSP) for their study**. A CSP is subsidised by the Government so that students only pay the Student Contribution Amount for their units of study. FEE-HELP is a loan for eligible students who have a Full-Fee place for their study.

HELP may be available for Australian citizens, permanent humanitarian visa holders and eligible New Zealand Special Category Visa holders.

* Please note the payment options and HECS-HELP information are correct at the time of printing. For updates please visit: studyassist.gov.au

** Please note not all students eligible for CSPs are eligible for HELP.

^ Source Australian Taxation Office www.ato.gov.au

Student Amenities Fee

The Student Services and Amenities Fee (SSAF) is charged to students for services and amenities of a non-academic nature, such as sporting and recreational activities, employment and career advice, child care, financial advice and food services.

Eligible students have the option of deferring student services and amenities fees through the SA-HELP scheme.

Student Amenities Fees (2019)

From January 1, 2019 the Student Services and Amenities fee is applied to all on campus and online coursework students at the rate of \$37.75 per 6 credit points (a typical unit at UNE is 6 credit points) to the annual full time maximum of \$302. The fee will be invoiced per study period and payable by the census date.

i For more information visit: une.edu.au/living

Bespoke Course Fee

UNE's Bespoke Courses give you the freedom to choose and pay for only the parts of a degree you need (see page 41 for course details). Our Bespoke Courses are offered as full fee, which means you only pay for each course you commence.

The cost for your first two units is \$3,300 each. If you decide to design a three or four unit Bespoke Course, the cost for the third and fourth units drops to \$3,150 each. UNE has collaborated with Regional Australia Bank to provide students with a competitive low interest finance option to help defer the unit fees.

For more information visit bespokecourses.com.au

Self-Education Tax Deductions[^]

If you are an Australian citizen you may be eligible for a self-education tax deduction.

Self-education expenses are deductible when the course you undertake leads to a formal qualification and meets the following conditions.

The course must have a sufficient connection to your current employment and:

- maintain or improve the specific skills or knowledge you require in your current employment, or
- result in, or is likely to result in, an increase in your income from your current employment.

What can you claim?

To find out what you can claim as self-education tax deductions check with your accountant or visit the Australian Taxation Office ato.gov.au

How to Apply

How you apply to study at UNE will generally depend on how you want to study with us, either online or on campus, and also whether you will be studying an Undergraduate or Postgraduate course.

How to Apply to UNE

If you are planning to study with UNE, you will need to follow the application process below. For more information visit une.edu.au/study

PREPARE

Check out the courses/entry requirements* and ATAR/OP.

Support at UNE

How we support you at UNE

At UNE you get more than just a degree. The support we offer to our students is a big part of what makes UNE special. You don't get lost in the crowd.

Academic Skills Office

The Academic Skills Office (ASO) is UNE's learning support to help you to succeed and excel in your studies. The ASO will help you to study more effectively and improve your results.

i For more information visit une.edu.au/aso

Student Support Team

At UNE we want to be sure your study journey throughout your degree is as smooth as possible.

Student Support Team services include

- career development
- counselling
- special needs support
- one-to-one support and troubleshooting

Staff are available to work with you throughout your time at UNE.

i For more information visit une.edu.au/student-assist

Library Services

The University Library provides access to a wide range of information in electronic form and houses a large collection of books, journals and audio-visual material in the Dixon Library and the Law Library. In addition, the Dixon Library hosts the Learning Commons where you will find computers, media rooms, a podcasting studio, group study rooms and rooms for problem-based learning. Many of the resources found within the libraries are available online so you can do your own research at home or on campus.

i For more information visit une.edu.au/library

Childcare

Yarm Gwanga provides long term (full day and sessional), intensive school and vacation care.

i For more information visit yarmgwangachildcare.com.au

Ooralta Aboriginal Centre

Ooralta is the study and advisory support centre for Aboriginal and Torres Strait Islander students enrolled at the University of New England. From your very first visit to UNE, right throughout your studies until completion of your degree and graduation, Ooralta is here to support you. Whether you are enrolled on campus or studying online, the centre assists you with enquiries and referrals about courses, academic advice, accommodation, Abstudy, scholarships and cadetships. Ooralta also offers tutoring through the Indigenous Tutorial Assistance Scheme (ITAS), computer and study facilities, and activities to engage with other students and the local Aboriginal community.

i For more information visit une.edu.au/ooralta

24/7 Online Tutor Support

With UNE's tutor support you can upload a draft assignment 24/7 and get detailed feedback in less than 24 hours. Academic literacy and assignment support is also available for essay and report writing, assignment research, referencing and citation and study skills. Online after hours support (3pm-12am) is available for foundation skills in maths, science and business studies as well as first year accounting, economics and statistics. UNE also offers many academic skills workshops via video conference. The workshops offered include subject-area specific sessions in writing and study skills. We also have a wealth of online resources available to all students to help with assignments and exam preparation.

Other Opportunities

There are a range of options available to enhance your study at UNE, including

- opportunities for leadership and teamwork through community participation
- parliamentary internships
- international exchange programs as credit towards your UNE degree
- personal and academic support programs
- links and partnerships with industry, research organisations and training bodies.

^{*} Alternative entry requirements apply. See my.une.edu.au/courses.

[~] This course requires a Music Audition as part of the entry requirements. For more information visit une.edu.au/music-audition

[^] PERSONAL STATEMENT REQUIREMENTS

From 2018, the Australian Government has introduced additional standards for admission to Initial Teacher Education (ITE) degrees. In addition to academic capability, applicants will also need to submit a 'Personal Statement' outlining their non-academic abilities. These non-academic capabilities include an applicant's interest in teaching children and/or young people and their motivations for becoming a teacher along with their involvement in personal learning and/or leadership activities (ie work experience, community work or volunteering, extra-curricular projects etc). For more information visit une.edu.au/teachingreqs

[#] BAND 5 REQUIREMENTS

In addition to standard entry requirements (ATAR or equivalent), entrants to these accredited undergraduate teaching degree will need ONE of the following:

- a minimum of three 'Band 5' HSC results, including one in English, or
- to complete bridging units equivalent to a minimum of three 'Band 5' HSC results, including English, as approved by NSW Education Standards Authority (NESA) before entry, or
- to complete at least a full year of discipline studies in another higher education award (ie Bachelor of Arts, Diploma in Science or Bachelor of Educational Studies), or
- to enter via an alternative pathway, as advised by UNE and approved by NESA.

Postgraduate

Entry Requirements: Most postgraduate courses require an AQF Level 7 Bachelor degree in a relevant discipline as a minimum for admission. For specific entry requirements, minimum assumed knowledge and advanced standing information visit une.edu.au/teaching

Moving Up or Moving On?

With the flexibility of our online degrees and experience with defence, UNE will help you to adapt to a rapidly changing workplace.

Balancing study with life in the military requires a university that understands the unique needs of defence personnel. Whether you're preparing for promotion or a switch to civilian life, UNE has been working with defence personnel for more than 70 years. In fact we invented university distance education for defence personnel returning from World War II, and we've been perfecting it ever since.

The flexibility of our online degrees, and deep understanding of the demands that come with life in the armed forces, allows you to stay on track, even through transfers and deployments.

Ability to fast track your degree

UNE values and recognises your experience and training in the ADF which may give you advanced standing into UNE courses through recognition of prior learning (RPL*).

Successful entry into the

- Bachelor of Business
- Bachelor of Organisational Leadership
- Bachelor of Training and Development

guarantees you will receive 16 units of advanced standing, enabling you to complete your degree in one year with only eight units of study.

To find out more, or to see all the courses on offer, visit une.edu.au/defence, or talk with our team about your situation and objectives.

* Your RPL will be assessed prior to admission being granted.

une
University of
New England

UNE's Bespoke Courses unlock degrees so you can study only what you need.

Until now, university education was locked up in degrees, with lots of rules that made it hard to respond quickly to a changing workplace. UNE's new Bespoke Courses provide you with freedom to study just the 2, 3 or 4 units you need and assemble them into your own short university course. Choose your units from a single degree, or 'mix and match' units from different degrees that are relevant to you.

UNE also offers the Bespoke Graduate Certificate in Professional Practice*. This course includes a genuinely innovative process that allows you to complete with less effort, and with more career benefits, than a standard graduate certificate. The effort required is reduced because 25 to 50% of the course is devoted to collaborating with your academic success advisor, to articulate and demonstrate the knowledge you have already gained in your professional life. The rest of the course is made up by choosing any two or three units (depending on credit granted) from more than 1,000 units across the university.

Bespoke Course units can be selected from over 1,000 units in:

Accounting & Finance
 Agriculture & Rural Science
 Animal Science & Zoology
 Archaeology & Indigenous Studies
 Arts
 Business, Management, Marketing and Human Resources
 Classics, History, Philosophy & Religion

Computer Science, IT & Data Science
 Economics & Agribusiness
 Education & Teaching
 English, Writing, Media & Communications
 Environmental & Earth Sciences
 Exercise & Sports Science
 Geography & Planning
 Languages, Linguistics & Cultural Studies

Law & Criminology
 Nursing, Social Work & Health
 Peace, Political & International Studies
 Pharmacy and Biomedical Science
 Psychology, Sociology & Social Science
 Science & Mathematics
 Sustainability
 Theatre, Performance & Music

Bespoke Courses are available online** and offer 24/7 tutor support. You can start in March, July or November.

Design your bespoke course at
une.edu.au/bespoke

* An 8 unit Graduate Diploma in Professional Practice is also available.
 ** Some units may have on-campus components.

FUTURE OF WORK PREDICTOR

How secure is your career?

Experts predict 50% of jobs will be lost by 2030. Discover how exposed you are with UNE's free Future of Work Predictor. Your report is based on latest economic data and tells you:

1. How your job will change overall
2. How your job tasks will change
3. How your qualifications compare, and
4. How wages and employment in your job will change

Get qualified for university entry at home, for free

If you have ever considered university study and thought it was out of your reach, it's time to think again.

UNE's Pathways Enabling Course has been specially designed for adults, like you, without the educational background for undergraduate admission.

The Pathways Enabling Course prepares you for admission to an undergraduate course at UNE. It is free from course fees, available online and provides students with access to tutoring and mentoring support at all stages.

Successful completion of UNE's Pathways Enabling Course provides you with the minimum entry requirements to most of our undergraduate courses. We can even give you course credit to help you fast-track your degree.

Why study the Pathways Enabling Course at UNE?

- Prepare for university without paying course fees
- Gain admission to university
- Develop valuable skills and knowledge
- Enjoy flexible online study - benefit from UNE's 60 years of excellence in flexible study
- Complete study that can count towards your degree
- Start in any of UNE's three teaching periods
